

Notice of Master Plan

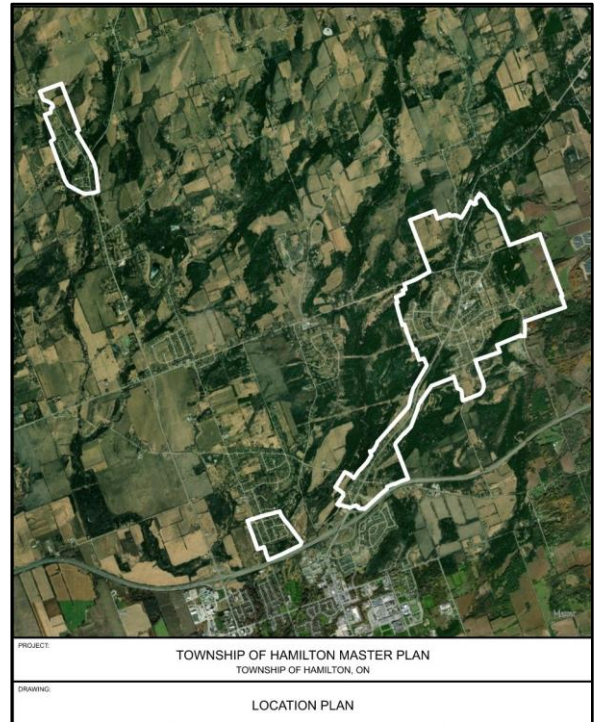

Township of Hamilton Water Supply Master Plan

The Township of Hamilton has completed a Master Planning process in accordance with Approach 1 of the Municipal Engineers Association (MEA) Class Environmental Assessment (Class EA) to develop a Water Supply Master Plan. The Master Plan report assessed various options to improve performance and reliability of the water supply and treatment infrastructure while accommodating for future growth in the Township.

Based on recent study findings and inputs from agency stakeholders and the public, the Master Plan is now complete. The preferred alternative, presented in Section 7.5 of the report, is to install drinking well(s) and treatment infrastructure on a new site to support the Creighton Heights system, as well as recommendations for next steps to progress towards implementation. The recommended projects are presented in Section 8.0 of the Master Plan report which is available for review at the Township's website: [News | Township of Hamilton](https://www.hamiltontownship.ca/news/township-of-hamilton)

By this notice, the Master Plan is being placed on public record for a 30-day review period in accordance with the requirements of the Municipal Class EA. Interested persons may provide written comments to the project team by **February 5, 2026**. All comments and concerns should be sent directly to:

All personal information included in your request – such as name, address, telephone number and property location – is collected, under the authority of section 30 of the Environmental Assessment Act and is collected and maintained for the purpose of creating a record that is available to the general public. As this information is collected for the purpose of a public record, the protection of personal information provided in the Freedom of Information and Protection of Privacy Act (FIPPA) does not apply (s.37). Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential.

If there is no request received by **February 5, 2026**, the Master Plan is deemed complete, and the Municipality may then proceed with implementing the recommendations.

This Notice was originally issued on January 5, 2026.
